

ALTA COPPER CORP.
(formerly "Candente Copper Corp.)
Environmental Policy

Alta Copper Corp. and their subsidiaries (the "Company"), consider sound environmental management and effective environmental compliance as essential to sustainable business conduct, benefiting all stakeholders. The Company will apply moral stewardship over the environments in which it explores, develops, operates, and/or closes mining operations.

The objectives of the Company's commitment to environmental management are to:

- Operate in accordance with industry best practice standards while complying with applicable environmental, health and safety, laws and regulations.
- Establish and maintain well-defined health and safety, environmental and community management (HSEC) protocols to guide its activities.
- Ensure that directors, officers and employees understand and adhere to its HSEC protocols.
- Identify, manage and monitor potential environmental impacts, adhering to applicable host country regulations and striving to comply with international best practice.
- Provide operations with the resources, expertise and training to effectively carry out its HSEC management programs.
- Engage employees in programs directed towards minimizing adverse effects on the environment resulting from company operations.
- Promote environmental awareness among its employees, their families and the communities in which it operates.
- Monitor, review and assess performance in an effort to develop a company culture of continuous improvement against stated commitments regarding HSEC management.
- Require those who provide services and products to the Company to adhere to the HSEC policies of the company.
- Mitigate environmental impacts through efficient use of resources, and the reduction of input materials and waste.
- Recognize conservation and heritage values within areas the company operates.
- Communicate openly with stakeholders on matters pertaining to health, safety, the environment and the communities.
