The accompanying notes to the condensed interim consolidated financial statements are an integral part of these statements.

1. Nature of operations and going concern

Alta Copper Corp. and its subsidiaries (the "Company") are engaged in the exploration of its mining properties located in Peru. Its principal property is the Cañariaco Copper Project in the District of Lambayeque. The Company was incorporated on May 1, 1997 under the Business Corporation Act of British Columbia and its principal office is located at Suite 801-1112 West Pender Street, Vancouver British Columbia, V6E 2S1.

The company operates a single reportable segment being the exploration of mining properties located in Peru.

The principal subsidiaries of the Company are as follows:

Subsidiary name	Interest held as at December 31, 2024	Functional currency
Cañariaco Copper Peru S.A.C. ("Cañariaco")	100%	US Dollars
Cañariaco Copper (BVI) Corp.	100%	US Dollars
Inversiones Mineras Las Palmas S.A.	100%	US Dollars
Cobriza Metals Corp.	100%	CDN Dollars
Cobriza Metals (BVI) Corp.	100%	US Dollars
Cobriza Metals Peru S.A.C.	100%	US Dollars

The Company's common shares are listed on the Toronto Stock Exchange ("TSX") and the Lima Stock Exchange under the trading symbol "ATCU" and OTCQX Best Market under the symbol "ATCUF".

These condensed interim consolidated financial statements have been prepared on the basis of accounting principles applicable to a going concern, which assume that the Company will continue operations for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of operations as they come due. For the nine months ended September 30, 2025, the Company incurred a net loss of \$657,528. As at September 30, 2025, the Company had \$43,898,020 in cumulative losses since inception and excess of current assets over current liabilities of \$657,268, (December 31, 2024 excess of current assets over current liabilities \$858,077).

The Company does not generate cashflows from operations and accordingly, the Company will need to raise additional funds. The Company can consider raising additional funds by way of the issuance of securities, sale of a project royalty interest, project streaming arrangement, project joint venture and divestiture of non-core assets. Although the Company has been successful in raising funds in the past there can be no assurance that the Company will be able to raise sufficient funds in the future, in which case the Company may be unable to meet its obligations as they come due in the normal course of business. The Company is subject to sovereign risk, including political and economic instability, changes in existing government regulations relating to mining, as well as currency fluctuations and local inflation. These factors are material uncertainties that may cast significant doubt regarding the Company's ability to continue as a going concern. Should the Company be unable to realize its assets and discharge its liabilities in the normal

course of business, the net realizable value of its assets may be materially less than the amounts on the statement of financial position.

2. Statement of compliance

These condensed interim consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") applicable to the preparation of interim financial statements, including IAS 34, Interim Financial Reporting. These condensed interim consolidated financial statements have been prepared on a historical cost basis, except for certain financial instruments, which are measured at fair value. These condensed interim consolidated financial statements should be read in conjunction with the Company's audited consolidated financial statements for the year ended December 31, 2024, which have been prepared in accordance with IFRS issued by the IASB.

3. Marketable Securities

As at September 30, 2025, the Company held 5,416,373 (December 31, 2024 - 5,536,373) common shares of Xali Gold Corp. ("Xali Gold"). The closing share price was Cdn\$0.040 (December 31, 2024 - Cdn\$0.040) and the fair value of the Company's investment in Xali Gold is \$155,632 (December 31, 2024 - \$153,906).

During the nine months ended September 30, 2025, the Company received 2,500,000 shares in Precore Gold Corp ("Precore Gold") as part of the Arikepay option agreement (note 4).

The closing share price of Precore Gold was Cdn\$0.23 and the fair value of the Company's investment is \$413,045 (December 31, 2024 - \$nil).

The maximum number of common shares reserved for issuance upon exercise of the Omnibus Plan is 10% of issued and outstanding common shares.

d) Stock Options

The Board may grant Options to any participant under the Omnibus Plan at any time. The exercise price for Options will be determined by the Board but may not be less than the Market Price (as defined below) of a Share at the Award Date. Options must be exercised within a period fixed by the Board that may not exceed 10 years from the date of grant, except in a case where the expiry period falls during a blackout period, in which case the expiry period will be automatically extended until 10 business days after the end of the blackout period.

The former Option Plan will continue to exist but only for the purpose of governing the terms of all outstanding Options that have already been granted under before the adoption of the Omnibus Plan.

The following table reflects the continuity of stock options for the nine months ended September 30, 2025:

	Number of Stock Options	Weighted Average rcise price
Balance, December 31, 2023	5,460,000	\$ 0.55
Issued	500,000	0.53

Fair value at grant date of the stock options was measured based on the Black-Scholes option-pricing model. Expected volatility is estimated by considering historic average share price volatility. The weighted-average assumptions used for the Black-Scholes option-pricing model of stock options granted during the period are as follows:

	As at September 30 2025	As at December 31 2025
Risk-free interest rate	2.45-2.69%	3.07-3.40%
Expected life of options	5 years	5 years
Annualised volatility	81.12-99.01%	99.71-107.42%
Dividend rate	Nil	Nil

The following table reflects the actual stock options issued and outstanding as at September 30, 2025:

e) Warrants

As at September 30, 2025 and December 31, 2024 the Company had no outstanding warrants.

f) Reserves

Equity settled employee compensation and warrants reserve:

The equity settled employee compensation and warrants reserve comprises stock-based compensation expense and other warrant payments. When stock options or warrants are exercised, the corresponding amount will be transferred to share capital.

Condensed Interim Consolidated Financial Statements

For the Three and Nine Months ended September 30, 2025 and 2024 (unaudited)

(Expressed in United States Dollars, Unless Otherwise Stated)

Foreign currency reserve:

The foreign currency reserve records unrealized exchange differences arising on translation of group companies that have a functional currency other than the Company's reporting currency.

g) Deferred share units ("DSU's")

The Board may grant DSUs to any DSU participant (being a non-employee director of the Company) under the Omnibus Plan at any time. One DSU is equivalent to one Common Share. Fractional DSUs are permitted under the Omnibus Plan. The number of DSUs granted at any particular time pursuant to the Omnibus Plan will be calculated by: (a) in the case of an elected amount by a DSU participant, dividing (i) the dollar amount of the elected amount by (ii) the Market Value of a Common Share on the applicable award date; or (b) in the case of a grant of DSUs, dividing (i) the dollar amount of such grant by (ii) the Market Value of a Common Share on the date of grant.

The former DSU Plan will continue to exist but only for the purpose of governing the terms of all outstanding DSUs that have already been issued under before the adoption of the Omnibus Plan.

The following table reflects the continuity of DSUs for the nine months ended September 30, 2025:

Balance, December 31, 2023	920 440
	820,649
Issued	245,527
Cancelled	(14,535)
Settled	(666,405)
Balance, December 31, 2024	385,236
Issued	186,027
Settled	(73,943)
Balance, September 30, 2025	497,320

h) Restricted share units ("RSU's")

The Board may grant RSUs to any participant (other than consultants) under the Omnibus Plan at any time. The terms and conditions of grants of Share Units, including the quantity, type of award, award date, vesting conditions, applicable vesting period and other terms and conditions with respect to the award, as determined by the Board, will be set out in such participant's RSU agreement. One RSU is equivalent to one Common Share.

Upon the vesting and settlement of RSUs, the Company is entitled to elect, at the Board's sole discretion, to settle vested RSUs for their cash equivalent, Common Shares or a combination thereof. For purposes of determining the cash equivalent of RSUs on settlement, such calculation will be made on the settlement date based on the Market Value on the settlement date multiplied by the number of vested RSUs in the participant's notional RSU account. For the purposes of determining the number of Common Shares from treasury to be issued and delivered to a participant upon settlement of RSUs, such calculation will be made on the settlement date based on the whole number of Common Shares equal to the whole number of vested RSUs then recorded in the participant's notional RSU account. If an RSU would otherwise expire

i) Performance share units

As at September 30, 2025 and December 31, 2024 the Company had no outstanding performance share units.

7. Commitments

Community engagement and initiatives

On July 8, 2012, the Company signed a land use agreement with the community of San Juan de Cañaris, by which the community authorized the Company to use the land for exploration purposes. In the agreement, the Company committed 1,500,000 soles, (\$550,000) to fund sustainable development programs subject to specific project approval by a committee formed of community members, Cañariaco Copper team and a local institution (the "Administration Committee"). The Company did incur in excess of 1,500,000 soles, (\$550,000) on community initiatives requested by Community Authorities since July 2012, however, the Administration Committee only ratified half, 750,000 soles, (\$275,000) of the expenditures.

The Company has incurred in excess of 6,000,000 soles (\$2,200,000) in total on community initiatives inclusive of the 1,500,000 soles, (\$550,000).

In July 2022, the Company agreed to contribute an additional 750,000 soles, (\$200,000) for the development of sustainable projects in the area. These projects are to be approved by a committee made up of community members, Cañariaco Copper team and the Lambayeque Chamber of Commerce.

The Company also committed to issue 250,000 common shares, post-consolidation, on May 19, 2023 to the community upon the earlier of the commencement of the construction phase of the Cañariaco Copper Project or the transfer of at least 51% of the Cañariaco Copper Project to a third-party.

During the nine months ended September 30, 2025, the Company granted and settled 73,943 DSU's (2024 – 245,527) in consideration for directors' fees.

During the three and nine months ended September 30, 2025, the Company granted 33,457 RSU's (2024 – nil) in consideration for management fees.

9. Financial risk and capital management

The Company is exposed to certain financial risks in the normal course of its operations:

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its obligations associated with its financial liabilities. The liquidity position of the Company is managed to ensure sufficient liquid funds are available to meet financial commitments in a timely and cost-efficient manner. The Company's management continually reviews the liquidity position including cash flow forecasts to determine the forecasted liquidity position and maintain appropriate liquidity levels. The Company plans to make payments of trade payables, which are either past due or due within the next 12 months and commitments from its current working capital and future sources of equity financing. Liquidity risk is considered to be high.

The following table details the Company's contractual maturities for its financial liabilities as at September 30, 2025 and December 31, 2024, due by period:

	Carrying	Contractual	0 to 12	More than 12
As at September 30, 2025	amount	Cashflows	months	months
Accounts payable and accrued liabilities	\$ 183,287	183,287	183,287	-
	183,287	183,287	183,287	-

	Carrying	Contractual	0 to 12	More than 12
As at December 31, 2024	amount	Cashflows	months	months
Accounts payable and accrued liabilities	\$ 198,219	198,219	198,219	=
	198,219	198,219	198,219	-

Currency risk

Currency risk is the risk that arises on financial instruments that are denominated in a foreign currency, i.e. in a currency other than the functional currency in which they are measured. The Company operates internationally and is exposed to risks from foreign currency rates. The functional currencies of the Company's subsidiaries are the United States and Canadian dollars and certain of the subsidiaries' transactions are denominated in Soles. The Company does not enter into any foreign exchange contracts to mitigate this risk. The Company and its subsidiaries do not have significant transactions or hold significant cash denominated currencies other than their functional currencies. Therefore, the risk is considered moderate.

Credit risk

Credit risk is the risk that the counterparty to a financial instrument will cause a financial loss for the Company by failing to discharge its obligations. Cash is deposited in highly rated corporations and the credit risk associated with these deposits is low. As at September 30, 2025 and December 31, 2024, the Company's maximum exposure to credit risk is the carrying value of its cash and receivables.

Capital management

The Company's capital structure is comprised of the components of equity. The Company's objectives when managing its capital structure is to maintain financial flexibility to preserve the Company's access to capital markets and its ability to meet its financial obligations.

The Company's corporate office is responsible for capital management. This involves the use of corporate forecasting models, which facilitate analysis of the Company's financial position including cash flow forecasts to determine future capital management requirements.

In preparing its budgets and corporate forecasting models, the Company considers operating commitments imposed by its subsidiaries and the stability of the global capital markets.

Capital management is undertaken to safeguard a secure, cost-effective supply of funds to ensure the Company's operating and capital expenditure requirements are met. There were no changes in the Company's approach to capital management during the year and the Company is not subject to any restrictions on its capital.

Fair value hierarchy

The consolidated statements of financial position carrying amounts for cash, receivables, trade payables, payables to related parties and loans payable approximate fair value.

The following provides a description of financial instruments that are measured subsequent to initial recognition at fair value, grouped into Levels 1 to 3 based on the degree to which the fair value is observable:

• Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities;

- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Investments fall under Level 1.

There were no transfers between levels during the period.
